Licenses

Our Linux Distro is Qualys Appliance Linux (QAL) 2.0. It is based on Linux kernel 2.6.32 and a bundle of licenses including BSD, MIT, GPL, LGPL and Apache. The code does not modify these packages in any way except for the packages listed below.

The following packages are distributed together with the Linux distro and are modified by the code but the modifications do not tie into our intellectual property. LGPL and GPL licenses are permitted.
