Qualys Certificate View

Release Notes

Version 2.5.1
February 13, 2020

Here's what's new in Qualys Certificate View 2.5.1!

SSL Labs Grade Change for TLS 1.0 and TLS 1.1 Protocols

Servers that support TLS 1.0 or TLS 1.1 will now be capped to grade "B" keeping in line with SSL Labs grading.

TLS 1.0 and TLS 1.1 protocols will be removed from browsers starting early 2020. As there are no fixes or patches that can adequately fix SSL or deprecated TLS, it is critically important that organizations upgrade to a secure alternative as soon as possible.

For more details, see SSL Labs Grade Change for TLS 1.0 and TLS 1.1 Protocols
