Qualys Cloud Platform (VM, PC) v10.x

API Release Notes

Version 10.22.2

May 18, 2023

This new version of the Qualys Cloud Platform (VM, PC) includes improvements to the Qualys API. You'll find all the details in our user guides, available at the time of release. Just log in to your Qualys account and go to Help > Resources.

What's New

Revised Rate Limits for PC Posture Streaming APIs

Qualys API Server URL

The Qualys API URL you should use for API requests depends on the Qualys platform where your account is located.

Click here to identify your Qualys platform and get the API URL

This documentation uses the API server URL for Qualys US Platform 1 (https://qualysapi.qualys.com) in sample API requests. If you're on another platform, please replace this URL with the appropriate server URL for your account.

Revised Rate Limits for PC Posture Streaming APIs

APIs affected	/pcrs/1.0/posture/postureInfo /pcrs/1.0/posture/policy/list /pcrs/1.0/posture/hostids
New or Updated API	Updated
DTD or XSD changes	No

For the PC streaming APIs, you can now adjust the rate limits as per your requirement. To customize the rate limits, contact your Technical Account Manager or Qualys support.

By default, for each of these APIs, you can send a maximum of 25 API requests per Qualys PC subscription in a 60-second timeframe.
