Qualys Cloud Platform (VM, PC) 10.x

Release Notes

Version 10.23.3
September 19, 2023

This new release of the Qualys Cloud Platform (VM, PC) includes improvements to Vulnerability Management.

Issues Addressed

The following issues are fixed with this release:

- The VMWare ESXi Authentication record details displayed an incorrect status, **Not Attempted**, for each host. This issue is now fixed.

- The **Assets > OS** tab failed to load the list of operating systems due to a timeout issue when the record count exceeded 10 thousand. This issue is now fixed.
