Qualys Cloud Platform v2.x

Release Notes

Version 2.39.1
July 3, 2019

Qualys Cloud Platform 2.39.1 brings you the following improvements and updates:

AV **Asset View**

- Fixed an issue in AssetView where clicking on a widget item showed [object Object] in the Assets search field, instead of the title value.

- Fixed an issue in AssetView widgets where the trend data goes missing upon changing the widget type.

- The Connectors list in AssetView will now auto-refresh every 15 minutes instead of the existing 5 minutes.

Qualys Cloud Platform

- Fixed an issue where TERMINATED / DELETED instances of AWS / Azure continued to show up as RUNNING in Asset details. Now these instances are not shown in Asset Details.
