Qualys CloudView 1.23.1.0, Cloud Platform 3.12
API Release Notes

July 15, 2022

We are introducing a new API for AWS connectors. The AWS API (version 3) will be available to use after CloudView 1.23.1.0 release.

You'll find all the details in our user guides, available at the time of release. Just log in to your Qualys account and go to Help > Resources.

What's New

Get AWS Base Account Id

Qualys API Server URL

The Qualys API URL you should use for API requests depends on the Qualys platform where your account is located.

Click here to identify your Qualys platform and get the API URL

Get AWS Base Account Id

Alternative API	/qps/rest/3.0/search/am/awsbaseaccount
New or Updated APIs	New
Operator	POST
API	/cloudview-api/rest/v1/aws/connectors/awsBaseAccountId

We have deprecated the CloudView API endpoint for 'Get AWS Base account Id' and an alternative API is introduced in the Asset Management application.

Permissions required - Managers with full scope.

Name of Deprecated API	Deprecated API	Name of New API	New API
Get AWS Base Account Id	/cloudview-api/rest/v1/aws/connectors/awsBaseAccountId	Get AWS Base Account Id	/qps/rest/3.0/search/am/awsbaseaccount

Sample: Get Base Account Details

```
curl --location --request POST
'https://qualysapi.qualys.com/qps/rest/3.0/search/am/awsbaseaccount \
--header 'Accept: application/json'\
--header 'Content-Type: application/json' \
--header 'Authorization: Basic cWF0ZXXXXXXXXXXXXXBAMTIz' \
--header 'Cookie: JSESSIONID=8C54FDXXXXXXXXXXXXXXXXXXDC350A'
```

Response:

```
{
    "ServiceResponse": {
        "data": [
            {
                "globalAccountId": "2057xxxxxx38",
