

Qualys Connector v1.4.0

Version 1.4.0

March 10, 2023

Issues Fixed in This Release

- We have fixed an issue where the search query “tags.name” was not returning connectors with the specified tag.
- We have fixed an issue where running an EC2 connector changed the operating systems of an asset in AssetView.
- We fixed an issue where customers could not download connector reports when the count of connectors was greater than 1000.
