Container Security

Release Notes for Sensor

Version 1.7.2
April 12, 2021

Here's what's new in the Container Security Sensor!

Issues Addressed

- Earlier after the auto upgrade, sensor was not cleaning up the old sensor setup files. Now after the auto upgrade is successful, only the setup files of the current version and the version the sensor is being upgraded from will be persisted. Setup files for other versions will be removed after auto upgrade.
