

Qualys Gateway Service v1.x

Release Notes

Version 1.3.0

May 28, 2021 (Updated June 8, 2021)

Qualys Gateway Service 1.3.0 brings you the following improvement.

New Features

Enabling SSH to troubleshoot your environment

QGS/CAMS is a hardened appliance that can be difficult to troubleshoot. Going forward, if you face issues, Qualys Support can leverage the SSH feature to help troubleshoot the issue on-site.

Enhancements

- QGSUI RX lib upgraded from 2.7.0 to 2.12/13 and migrated to full-width UI.
- Component upgraded (logstash, camsd, HAPROXY, confd) on CAMS/QGS appliance.

Behavior Changes

There are no behavioral changes observed in this release.

Issue Addressed

Fixed an issue where agents were not able to communicate with Qualys Cloud Platform due to disk space. Log retention has been limited to 100MB.

Known Limitations and Workarounds

There are no reported and notable issues open in this release.
