

Qualys Gateway Service v2.x

Release Notes

Version 2.1.0

June 27, 2022

Qualys Gateway Service 2.1.0 brings you the following improvements.

Enhancements

With this release, you can see if the appliance is upgraded or not to the latest release once it is deployed on the production as per the following enhancements:

Appliance TUI Display Service Version on the Info Tab

The appliance TUI will now display the service version on the Info tab, as shown in the following screenshot.

Also, on the QGSUI, you can verify if the appliance is upgraded to the latest services or not, as shown in the following screenshot.
