

Qualys Global IT Asset Inventory v1.x

Release Notes

Version 1.3.5

May 10, 2021

Here's what's new in Qualys Global IT Asset Inventory 1.3.5!

[Editable Internet Facing Tags](#)

Editable Internet Facing Tags

With this release, you can edit internet facing tags which includes pre-defined range of IP addresses. With this “edit” feature, you can now exclude IPs or range of IPs from the tag rule.

This also allows you to make changes in Mark as Favorite, Description, Tag Properties (tag color, removing parent tag, and add or remove IPs/range of IPs).

The screenshot shows the Qualys Express interface for the 'Global IT Asset Inventory' section, specifically the 'Tags' tab. A search bar at the top contains 'internet facing'. Below the search bar, there are buttons for 'Actions (1)', 'Create Tag', and 'Filters'. A table lists tags with columns for 'NAME', 'CREATED ON', and 'MODIFIED ON'. The first tag is 'SF_Tags' with a checkmark and star icon, created on Jun 04, 2020, and modified on Jun 04, 2020. The second tag is 'Internet Facing...' with a star icon, created on Jun 18, 2020, and modified on Dec 17, 2020. A 'Quick Actions' menu is open for the 'Internet Facing...' tag, showing options: 'View', 'Edit', 'Find assets', 'Remove from favorite', 'Add Child Tag', and 'Delete'. The 'Edit' option is highlighted with a red box and a mouse cursor.

NAME	CREATED ON	MODIFIED ON
<input checked="" type="checkbox"/> ★ SF_Tags	Jun 04, 2020	Jun 04, 2020
★ Internet Facing...	Jun 18, 2020	Dec 17, 2020
