Qualys Patch Management

Release Notes

Version 1.7
May 05, 2022

Here's what's new in Patch Management 1.7!

Windows Uninstall Job is Now Windows Rollback Job

View the Next Job Run Schedule

**Qualys 1.7 brings you more improvements and updates! Learn more**

Windows Uninstall Job is Now Windows Rollback Job

We have renamed the uninstall job to the rollback job for the Windows assets.

View the Next Job Run Schedule

You can now check the schedule for when a scheduled job will be executed next. Navigate to **Jobs** > **Quick Actions** > **Job Details** > **Next Schedule**.

Issues Addressed

- We fixed an issue where the Patch Management report failed to generate.
- We fixed an issue where the assets with OS other than the English language showed a question mark (?) in the **Last User** and **OS** columns on the **Assets** tab.
