Email to be Sent on Deactivating a Scheduled Scan

We now send an email when you deactivate a scheduled scan to confirm that the scheduled scan is deactivated.

View PCI Application and Help Versions

You can now click to About link in the left pane to view the PCI application and help versions.

Issues Addressed

- We fixed a discrepancy between the "date and time format that is shown on the PCI Merchant UI for the Scan Results and Network reports" and "date and time format shown when the report is downloaded in the PDF format". Now, the date and time format shown on "UI" for reports on UI and "downloaded report" is the same.

- We have fixed an issue where for some PCI Merchant subscriptions were getting expired before the grace period of one day from the date of subscription expiry. Now, the subscriptions will expire after the grace period of one day after the expiry of the PCI Merchant's subscription.
